

WELCOME HOME

2029 Ptarmigan Dr, #2, Manor 2

Dear future homeowner of this wonderful home,

My husband and I returned to the Bay Area from Oahu when we learned a grandchild was on the way. It is so nice to be closer to family. We had heard wonderful things about retirement living in Rossmoor, but the reality of life here exceeded our greatest expectations.

When we found our home with its light, airy, and private feel, we fell in love with it. Also, the near constant bird songs are beautiful, and they soothe the soul. The occasional wildlife passing by adds to the feeling of privacy from others, and offers an outdoors feel.

My husband has mobility issues, so being able to take only a few steps from our car into the house has been a real blessing.

Our neighborhood is full of really nice and supportive people. We enjoy our May through September first Friday afternoon/evening get togethers in the open space under a beautiful big tree in the center of Entry 11. We all bring tasty treats and beverages to share. We also have a chili/soup and salad indoor event every February.

Our home offers a perfect space for his sound studio. It could also be an office or hobby room.

I've become a card carrying bocce player. I never dreamed that any sport for retired folks like me could be so much fun. We cheer on our team members, and for the opposing team when they throw a particularly good ball. Honestly, I feel like I'm back in junior high when I'm on the bocce courts. It feels so natural that making new friends is a breeze.

One of our neighbors took me on as her little sister in quilting. The quilting club is amazing as most of our quilts are donations for foster children. My grandmother was a quilter, and it gives me great pleasure to be following in her footsteps.

The neighborhood and unlimited activities of Rossmoor are what makes this place so special. I could say more about our spectacular home, but seeing is better than my words can express.

With love,

Tara & Mark
